

Xinwen Group visits Famous

Düsseldorf, Germany – On October 24th 2012 another delegation of the Xinwen Group, which is a daughter company of Shandong Energy Group Co., Ltd., visited Famous Industrial Group in Düsseldorf, Germany. The Xinwen Group is a loyal customer of Famous. As such, in the past a number of large and complex projects were undertaken successfully by both companies. The delegation was lead by Mr. Yao Feng, the Vice-General Manager of the Group. Additionally, several of the company's coal mines (Longgu, Xiezhuang, Huafend) were represented by their respective Chief Engineers and department heads for climate control.

An important event on the Xinwen delegation's itinerary was a visit at one of its German suppliers, the Wärme Austausch Technik GmbH (WAT) in Hamminkeln. Over the past several years, WAT was able to sell a large amount of cooling machines to Xinwen via Famous. As this customer is very satisfied with the quality of the WAT products, the visit at the factory primarily entailed the discussion of future projects, as well as optimizations in the service processes.

After the visit at WAT the delegation was brought back to the Famous Industrial Group headquarters in Düsseldorf. Upon a brief company presentation as well as an introduction about the products of BREUER-MOTOREN GMBH & CO. KG and GTA Maschinensysteme GmbH, Prof. Luan invited the entire delegation to dinner, where a pleasant and relaxed atmosphere led to the developments of new friendships, as well as new ideas for future projects.
