

## **Famous presents itself at the China (Zhaoyuan) Gold Mining Forum 2015**

The China (Zhaoyuan) Gold Mining Forum 2015 was held on the 27<sup>th</sup> August 2015 in Zhaoyuan, China. The organizers were inter alia the China Gold Association as well as the World Gold Council. The Forum was supported by the State Asset Administration, the national Council for Reform and Development and the Ministry for Industry and Information Technology of the P.R. China.

During the Forum Famous presented itself successfully at a stand. The visitors were informed about the company's offerings in detail through brochures and in-depth conversations.

In the panel for new technologies presented Mister Heeck, the chief engineer of the Famous Industrial Group, the latest technical development in the area of mining climate control. The current project of the Shandong Zhaojin as a showcase made it possible for Mister Heeck to present the sophisticated equipment which famous is offering. The climate control is seen as one of the future problems in the Chinese gold and non-iron mining sector. Hence Famous was invited to the Forum to give an overview of their systems and solutions.
